

## NEST seminar series 2012

- 19 January      Yaroslav Blanter  
(Kavli Institute of Nanoscience Delft, The Netherlands)  
“Backaction in Nanomechanical Systems”
- 16 February    Oleg Mitrofanov  
(University College London, UK)  
“Mapping of Terahertz waves using near-field microscopy”
- 15 March        Felix von Oppen  
(Freie Universität Berlin, Germany)  
“Majorana fermions and non-Abelian statistics in quantum wire networks”
- 19 April        Igor Zozoulenko  
(Linköping University, Sweden)  
“Interacting electrons in graphene nanoribbons in high magnetic field”
- 8 May            Carlo Beenakker  
(Leiden University, The Netherlands)  
“tba”

The seminars will be held in NEST seminar room at 17:00.
